MY INVENTION

Give a complete description of your machine for selling it.

(Teacher's example)

PICKING CUMBA 3.0. Machine.

The machine is perfect to clean up all the mess in your house. This machine will transform your life.

The Picking Cumba allows you to pick up all the mess at home. It has an electrical motorbike with 3 wheels. It has four arms with gloves. It has a seat and a steering wheel.

It can pick up toys and clean the dust, sweep, etc. It will save you a lot of time of housework.

The picking Cumba is made of plastic, rubber and metal. Plastic is light and cheap. Metal is resistant and hard, rubber is flexible and an insulator. The picking machine is red and bright.

Don't doubt it and buy this fantastic machine for less than you think that you can pay in easy instalments.

Now is your turn, describe your invention:

My invention is for...

My invention has...

And it has...

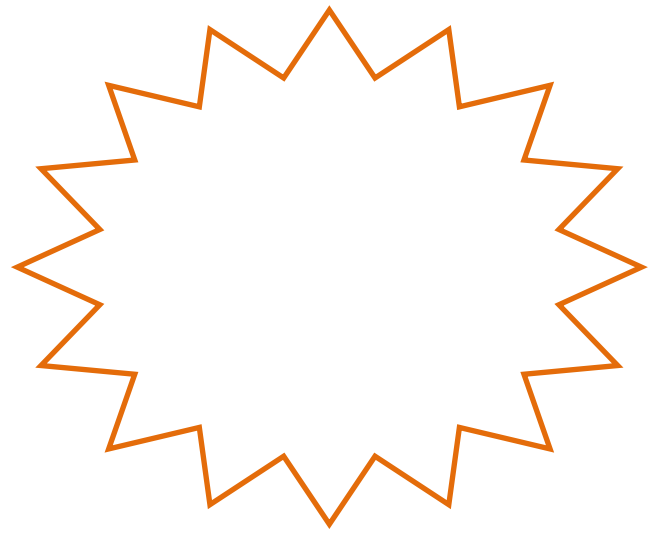

My invention is (size)

My invention is (colour)

My invention can...

My invention is made of...

My invention is the best because...
