

Class 5<sup>º</sup>A

3, San José de Calasanz st.

22700, Jaca (Huesca).

Friday 23<sup>th</sup>, October, 2015

Hi fourth graders,

How are you? We are the fifth graders. In science we are doing a project about the body systems and we are planning to visit you to explain our projects. We think you will learn many things.

Do you like to learn anything about the human body? What are you doing in science? Do you study the human systems? We hope you enjoy our projects of the human body.

We have to do many things, we have to say goodbye.

See you later,

Luna, Marcos, Nicolás, Aitana and Iboñ.
